SMART-SHADE

SPETTAMANN
GERMAN QUALITY SINCE 1999

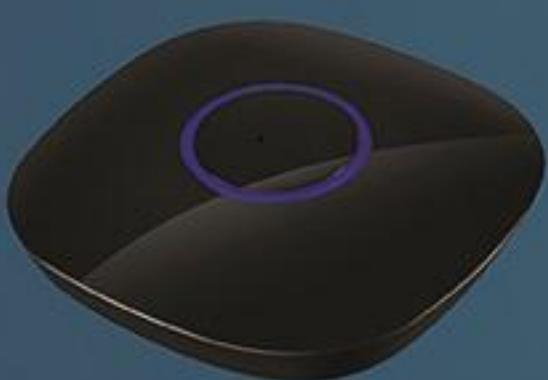

Control Your Shade with Smart Devices

- More Energy Efficient
- Operate Single or Multiple Shades Simultaneously
- Both Indoor and Outdoor Temperatures are Displayed
- Monitor Remote Battery levels

Create Custom Zones

- ZONE - location or area where Shades are located (upstairs or downstairs)
- Utilize your phone or iPad's GPS to establish zone location

Optional Smart-Shade Hub available

- Operate your Shades from from Anywhere around the World
- Compatible with Voice Control devices

Organize your Shades

- Operate Multiple Shades in each Zone
- Name each Shade for Easier Use
- Edit or delete any Shade in a Zone

Voice Control* with Amazon Alexa

Our Smart-Shade app with the Amazon "Alexa" and other voice control devices, can create an atmosphere or mood thru voice control.

Pre-program the Amazon "Alexa" and the Smart-Shade app; to perform a set of actions when a particular command is spoken.

"Alexa, Open My Shades"

"Alexa, Open Patio Awning"

"Alexa, It's Party Time"

"Alexa, Close My Awning"

Use with Echo Dot, Echo Plus and/or Echo Show (Smart-Shade Hub Required)
